

Presenting
EATON'S
WALLPAPERS
for 1940

for your living-room,
dining-room, kitchen,
bedrooms and bathrooms

MODERN HOME DECORATION

begins with the walls

Interior decorators agree that the walls are the first thing to consider when you plan to modernize your rooms. If you want to bring them up to date, the quickest, most economical way to begin is with new Wallpaper from **EATON'S**.

There are smart, bright color combinations if you decide to follow the modern trend, subdued designs for the conservative taste, patterns and colors that blend with almost any type of furniture, designs to make rooms seem larger, lustrous papers to make them look lighter and brighter.

Put a new two-toned, heavy plaster-effect paper in place of the old living-room design you have tired of—see what dignity it gives the whole room. Try a fresh, brightly colorful paper of another tone in the bedroom, you'll wake up every morning in lovely surroundings. One of the attractive, yet serviceable varnished papers will work wonders with dull kitchens or bathrooms; you can wash it fresh again every few months if you use a little care.

The beautiful, inexpensive wallpapers in this handy book of the actual samples will suggest dozens of ways to enrich your rooms.

Low-priced Wallpapers from **EATON'S** make it easy to give your whole house—room by room—a new "alive" feeling. Plan right now, to decorate. Choose your papers from **EATON'S** Samples.

It pays to buy wallpapers from EATON'S!

READ THESE VARIOUS DIRECTIONS CAREFULLY BEFORE ORDERING . . .

How much paper do you need?

HOW TO MEASURE YOUR ROOMS CORRECTLY

The number of feet around the room multiplied by its height gives you the number of square feet in the walls. Then divide the total by 35, for the number of single rolls required for walls. For every two openings in a room deduct a single roll. For ceiling multiply the length of room by the width and divide total by 35 for number of single rolls required.

ALL PRICES REFER TO SINGLE ROLLS

Our Wallpaper prices are always quoted by the single roll (35 square feet), and border by the single yard. They are put up in double rolls because the double length cuts to much better advantage. For instance, 5 strips may be cut from a double roll for the average room, whereas 2 full strips is all that can be cut from a single roll. Remember the double roll length when checking over your wallpaper order. What appears to be only 5 rolls is really 10 rolls of paper!

LORSQUE VOUS ECRIVEZ VOTRE COMMANDE RAPPELEZ-VOUS CECI:

Calculez toujours vos mesures pour papier peint en pieds; pas en verges.
Les papiers peints sont vendus par rouleaux simples de 35 pieds carrés, et mis en deux rouleaux par pièce pour éviter du gaspillage dans le coupage.
Les bordures sont vendues à la verge simple.
Vérifiez soigneusement vos mesures et donnez les numéros pour éviter de la confusion ou du délai.

HERE ARE A FEW GENERAL HINTS

ON MATCHING STRIPS

Sometimes there is a slight shading in wallpaper. Examine each roll carefully. Hang all the lighter paper on the dark side and the darker paper on the light side of a room. Return any rolls that are badly shaded.

KALSOMINE AND TINTING

Must be washed off with warm water and sponge before papering, and walls again glue-sized.

NEW PLASTER WALLS

Glue-size before decorating with wallpaper or paint.

CRACKED OR BROKEN PLASTER

Fill with Acorn Patching Plaster (listed on Inside Back Cover or in General Catalogue).

GOOD PASTE SPREADS SMOOTHLY

Good paste is hard to make with flour. It tends to lumpiness and sours quickly. Its adhesive quality is not as permanent as specially prepared powder like Acorn Paste Powder (see on Inside Back Cover or General Catalogue for price.)

EMBOSSSED PAPER

Embossed and other heavy papers should not be rolled at the seams when hanging. They must be trimmed at both edges and butted instead of overlapped to secure the necessary good finish.

BE SURE THAT YOU ORDER ENOUGH

It is always wise to order a little more paper rather than run short and have the job delayed. Extra wallpaper is always convenient for patching, too.

Sometimes later shipments of wallpaper differ slightly in shade in spite of the utmost precaution—another reason why you should make sure that you have plenty on hand to finish each room.

POINTS TO REMEMBER ABOUT BORDERS

In measuring for borders always allow two extra yards for cutting and matching and order accordingly. Borders are sold only by the single yard no matter how many printed on a yard. Therefore, if the border costs 5 cents a yard and it takes 20 yards to go around your room, the total cost will be \$1.00. If this is a narrow border, four will be printed to each yard so that you actually receive 5 yards of paper, carrying 20 yards of border.

HOW TO TREAT NEW WALLS

New walls that never have been papered should be treated with a thin coat of size made as follows: soak 1 lb. ground glue in enough water to cover it for 12 hours, then add 12 quarts hot water, and a tablespoonful powdered alum. Use it while warm. (Acorn Sizing Glue listed on Inside Back Cover, also in General Catalogue.)

Before sizing walls, fill large cracks or holes with Acorn Patching Plaster (see Inside Back Cover, also General Catalogue), mixed to a paste with the size, and scraped smooth. Wash off kalsomine or whitewash with warm water. If the walls are rough, smooth off projections with a piece of wood before sizing. Apply a thin coat of paste over the dry sizing, if walls are very rough. Let paste dry thoroughly before papering.

To estimate the number of rolls required for ceilings of hallways multiply the length by the width in feet and divide by 35. This will give the number of single rolls required. One single roll of wallpaper covers 35 square feet.

Sizes of Room	Height of Room, feet.	No. of Doors.	No. of Windows.	Single Rolls, Sidewall.	Yards of Border.	Single Rolls of Ceiling.
8 x 10 ft.	8	1	1	8	13	4
10 x 12 ft.	8	1	1	10	16	4
10 x 14 ft.	8	2	2	10	17	6
12 x 12 ft.	8	2	2	10	17	6
12 x 14 ft.	8	2	2	12	20	6
12 x 16 ft.	9	2	2	14	21	6
14 x 16 ft.	9	2	2	14	22	8
14 x 18 ft.	9	2	2	16	24	8

IT'S EASY TO HANG WALLPAPER—JUST FOLLOW THESE STEPS

Step by step we have outlined the easiest and quickest way to paper a room. Follow all directions carefully and you will find the work progressing fast and smoothly. To help you each step is marked from 1 to 6. Read them—study them—use them—these instructions have been prepared especially for you by successful home decorators and experienced paper-hangers.

These steps in correct paperhanging are simplified by the use of proper tools.

Make a paste table of two boards, 7 or 8 feet long and 10 or 12 inches wide. Place them together with the ends resting on boxes about 3 to 4 feet high. For hanging the paper, make a platform by placing a long plank on two or more strong boxes or ladders, high enough so that your head is about 6 inches from ceiling. You will need Paste Brush, Smoothing Brush or Layer, Trimming Knife and Paste (see Inside Back Cover, also General Catalogue for prices).

CEILING FIRST

Always paper ceiling first. Cut each strip 4 inches longer than room length so that 2 inches overlap at each end. This makes a neat finish covered by border. Match your strips and do all your measuring and cutting first.

To draw a guide line, for your first strip drive a nail 17 inches from side-wall at each end of ceiling. Stretch a cord smeared with charcoal or chalk, tightly between nails. Pull down in centre and let it rebound against ceiling, leaving an even chalk line!

PASTING

Paste before trimming to avoid smearing. Apply a thin, even coat. You'll find directions for making paste with Acorn Paste Powder. Spread paste evenly on the reverse side of pattern, making sure it is free from lumps or thickness. Thin layers evenly applied produce neater results. Allow paper to hang over table to prevent curling. Always spread paste from centre toward one end. To avoid having paper curl at edges, clean and size walls thoroughly around base-board and casing.

FOLDING

When left end of paper is pasted, draw it gently along pasting table, letting it rest on the floor while the other end is being pasted. Make sure that the floor is free from scraps and dust. When you have pasted one-half the length, fold it back to centre, pasted sides together. Paste other end and fold it back to centre in same way. Have side edges exactly even and do not crease paper. Always paste one strip at a time and hang it at once, especially when working on lighter weight papers.

TRIMMING

After pasting and folding, draw paper towards you about 3 inches from edge of table. Trim close to the printed edge as evenly as possible, working from the right. The great advantage in trimming after pasting is that selvage catches overflow of paste, giving an even distribution along the edges. The EATON Trimmer will simplify this work.

See Inside Back Cover, also your Big EATON Catalogue for Decorating Supplies.

HANGING CEILING PAPER

After pasting, folding and trimming, take the first ceiling strip, unfold end to your right and let folded end hang down over a thick roll of paper which you use in your left hand as in illustration. Guide strip along chalk line and smooth it along with your hand or smoothing brush, pressing gently. Allow 2 inches to extend down sidewall on both ends of every strip. Hanging the Border—After the usual pasting, folding and trimming, cut border into convenient lengths and detaching cut-out pattern. Begin at corner of room and guide upper edge of border close against ceiling line; brush it smoothly as you go along. Allow ends to lap over, one inch or more on adjoining walls.

HANG SIDEWALL

After the Ceiling comes the Sidewall. When ceiling is finished, cut and match strips for sidewalls, leaving about 4 to 5 inches to allow for waste in matching. The border covers the uneven upper ends, and lower ends should be trimmed at baseboard with base trimmer. If you use shears, mark edge to be cut with point of shears, raise paper from wall and cut evenly.

Commence hanging sidewall paper at any door to assure regularity of first strip and work toward the right.

SPECIAL OFFER

You may order enough of any pattern to paper a room, hang two or three strips of it, and if you are not perfectly satisfied, return what you have left and we will refund the money you paid for the entire lot, including shipping charges.

NOTRE OFFRE SPECIALE

Vous pouvez commander assez de n'importe quelle tapisserie pour une chambre, en poser deux ou trois lisières, et si vous n'êtes pas satisfaite, renvoyez-nous le reste et nous vous remettrons tout votre argent, y compris le transport.

THE T. EATON CO LIMITED
CANADA

DELIVERY POLICY

In ordering EATON Wallpapers, it will pay you to place your complete order at the same time. Any order amounting to \$5.00 or more will be forwarded, shipping charges paid. If your order for wallpaper does not amount to \$5.00 make it up to this amount with items from one of our general catalogues. This eliminates additional cost and lessens the total expense. We reserve the right to ship the cheapest way.

NOTRE MODE D'ENVOI

En commandant les Tapisseries EATON, vous y gagnerez en donnant un ordre complet à la fois. Toute commande de \$5.00 ou plus sera envoyée, transport payé. Si votre ordre de tapisserie ne se monte pas à \$5.00, complétez-le à ce montant avec des articles de nos Catalogues. Ceci évite des frais additionnels et réduit les dépenses. Nous nous réservons le droit d'expédier par la voie la moins coûteuse.

Be proud of your home

Are you satisfied with every room in your house? Are you proud to have your friends in? If the living-room or the kitchen or any of the bedrooms don't look just right—if they're beginning to seem a bit shabby or dull—look at the wallpaper. Probably all that's needed to perk up the whole room is a fresh pattern and new colors on the walls.

It's astonishing what a difference a lovely new Wallpaper can make to a room. Carefully chosen, the pattern will blend with, yet set-off your furniture to best advantage—it will help to make your house a home you can be proud of—where your friends like to gather, where your family likes to be.

To decorate your rooms most economically with paper you can rely on, make your selections from these actual samples. When the paper is on your walls you'll be thankful for its economy and proud of your home.

EATON'S experienced Wallpaper buyers have chosen these patterns for you from thousands of new samples issued by leading manufacturers. Their tasteful colors and patterns, their quality and particularly their extra value are important reasons why *It Pays to Buy Wallpaper from EATON'S.*
